

High capacity shredders with feeding table

IDEAL 5009-2-Cross/Cut

| | |
|------------------------|------------------------|
| Particle size | 8 x 40-80 MM |
| Performance | 600 – 700 SHEETS* |
| Power connection** | 400 VOLTS / 50 HZ / 3~ |
| Motor capacity | 9.0 KW |
| Feed opening | 500 MM |
| Security level | 2 |
| Dimensions (H x W x D) | 1714 x 1036 x 2170 MM |
| Weight | 1130.0 KG |

SIMPLY GIGANTIC:

- large feeding table with conveyor belt and electronically secured safety guard in the feeding area
- two three phase motors with together 9.0 KW
- «2-MATIC» – two automatic speed levels with automatic adaption of the shred speed to the paper quantity fed
- electronic control prevents overfeeding: automatic reverse and refeeding in case of paper jams
- automatic cut-off if the shred bag is full
- centralised oiler for effective and convenient lubrication of the shredding head
- easy-to-use control panel for forward/stop/reverse
- safety lock and key, main switch and emergency cut-off switch
- optical indicators for the operational status of the machine
- large shred compartment with electronically secured door on the rear side of the machine
- shred trolley on swivel castors with plastic bag mounting frame and 300 litres capacity
- thermal motor protection
- robust shredding heads with special hardened cutting shafts made of high-grade steel, resistant against soft metal objects
- accessories at an extra cost: second shred trolley and a modular conveyor belt system for the shred exit area

Accessories for high capacity shredders

Modular conveyor belt system for IDEAL 5009-2-Cross/Cut

| | |
|------------------------|----------------------|
| Motor capacity | 100 WATT |
| Dimensions (H x W x D) | 1160 x 690 x 1900 MM |
| Weight | 99.0 KG |

MODULAR CONVEYOR BELT SYSTEM FOR THE SHRED EXIT AREA OF THE MODEL IDEAL 5009-2-Cross/Cut:

- ideal for shredding large paper quantities
- output of the shredder can be doubled using this system (removing the full shred bag is not necessary)
- offers flexibility for an individually organised shred disposal
- easy and secure mounting – through the open door of the shredder, the modular conveyor belt system is placed into the shred exit area and locked with two handles
- electric belt drive (100 Watt motor), controlled by the shredder electronics
- electrically secured locking system
- thermal overload protection
- mobile on castors

Accessories for high capacity shredders

PAPERBOX „COLLECT & SHRED“

| | |
|------------------------|---------------------|
| Storage volume | 125 LITRES |
| Dimensions (W x D x H) | 514 x 600 x 1150 MM |
| Weight | 36 KG |

PAPERBOX „COLLECT & SHRED“:

- the convenient collecting box as an intermediate storage container for outdated files and documents
- ideal in connection with centralized high-capacity shredders as an effective inhouse solution for efficient data protection
- lockable lid with removable key
- slot for safe disposal of documents
- high storage volume of 125 litres
- practical handle for easy transportation
- smooth running, lockable castors
- storage space for outdated files or full wastepaper baskets

Outdated documents can be disposed of quickly and safely by using the PAPERBOX in the office as an ideal intermediate storage container for material to be shredded inhouse.

Additional storage space for files or full wastepaper baskets for easy transportation to the centralised shredder.

The removable key of the PAPERBOX guarantees that confidential documents stay confidential.

The hinged top door of the PAPERBOX allows easy access to the documents to be shredded.
